TI OYAL PAIR IN GUN ORGY IL DUE TODAY

DAILY, & CENTS,

Fete Prince

MUSECOGE (Okla.) July 20. (P)—Behind jail bars. Ves Carmack, a detective of the Muskoges Police Department, tonight was contemplating the results of a shooting orgy in which he and Paul Davis, a deputy sheriff, indulged early today. Davis was in a hospital critically wounded. Chief of Police Clark Compton started an investigation of the manner in which Carmack and Davis injured twelve other persons, one seriously, and terrorised the occupants of three rooming-houses.

All available policemen were summoned to quell the disturbance and the two men were subdued after a gun battle. Other policemen said the rampant men had imbibed too freely of confacated liquor.

Although Chief Compton questioned Carmack, he said the detective still was in a daze and his answers were incoherent.

J. A. Moore, proprietor of the Tulsa Hotel, one of the places visited by Carmack and Davis, was probably fatally wounded. He was shot in the back as he attempted to run downstairs and summon halp.

At all three hostelries, witnesses declared, the men broke down doors, clubbed occupants and shot at them when they attempted to run.

PARIS, July 30. (P)—Because of the gravity of the situation in France the rriot ministry will appear before rliament twenty-four hours earlier than at first planned. The ministerial declaration will be presented Wednesday afternoon, instead of Thursday.

When the Cabinet Council broks up this evening, M. De Monsie, Minister of Pinance, returned to his headquaiters, where with his technical advisers he worked far into the night putting the finishing touches on his financial plan, which he will set forth in the Chamber of Deputies tomorrow.

Fremier Herriot's second Cabinet is being greeted with a rapidly spreading ory for "committee of public safety." Two hundred and forty deputies have signed a demand for a species of dictatorship, which though, not ex-

can last long enough to accomplish anything toward the salvation of the frape.

M. De Monzie, the Finance Minister, will submit the government's financial plan to the Chamber tomorrow. A statement was issued at the conclusion of the Cabinet meeting tonight as follows:

"The Cabinet continued its elaboration of the ministerial declaration which will be read in Parliament tomorrow, Wednesday, at 5 o'clock, and of bills which will be immediately introduced. Further meetings will be conducted at 2 p.m. Wednesday, and at Elysee Palace at 3:30 p.m.

The Tehuantepec strike, which has been in progress for two weeks, is the source of the trouble, threatening a general walk-out over the entire na-tional system. reaction. As . Stuart made this declaration following a recent inspection trip hege.

It is perhaps true that one other district has a lower tax rate to raise funds for the work in California, but has a much higher assessment valuation and can get its required \$30,000 with a 1-cent rate, while the local district asks 5 cents on the \$100 valuation to raise \$2700 for its work.

Mr. Stuart recently succeeded Louva Lenert, called to Florida to undertake antimosquito work there. He declares plans for organization of a Hanford abatement district seem well under way. Alameda county, Solano county and Colusa county are planning county abatement districts.

five feet ten inchee tall, weighs 155 pounds and is said to be an excellent prospect.

A little more than ten years ago the name of Hal Chase was known to every follower of baseball. It was he who first introduced the system of playing the position deep, that is, far back of the bag where the grassy carpet supplants the clay infield.

Many stories have been told of "Prince Hal;" of his phenomenal style of play; his speed and uncanny judgment. The statement that "there has been only one first baseman, and that is Hal Chase," is said to have been made by Ty Cobb.

As a boy Hal Chase lived in Los Ostos, Cal., and a quarter of a century ago was starring on the University of Sants Clara nine.

In 1903 he took up professional

In 1903 he took up professional baseball and by a striking coincidence, William (Bill) Benson the man who led Hai Chase into the office of James Morley, owner of the Los Angeles team, is responsible for the son turning to a career ou the diamond. Benson, now a San Francisco business man, obtained consent from young Hai's mother for her son to sign a contract.

Son of Baseball's Great Frenchman Believes ex-Gob Can Beat Flowers, Middleweight King, Next Saturday

(This is the first of a daily series of articles by the famous French fighting man who has held titles in five different classes and is appearing in a skit at Pantages Theater this week. In these stories Carpentier will compare and discuss the fighting qualities of Tiger Flowers, the middleweight champion, and Eddie Huffman, who meet at Ascot Saturday in the first outdoor show of the year. He will do this exclusively for "Times" readers. On Saturday it is planned to have him "cover" the show from the standpoint of an expert and tell how the big battle was won or lost.—Ed.)

One of the most attractive fights from the viewpoint of the spectator that I have heard of in a long time is the Eddie Huffman-Tiger Flowers bout at Ascot next Saturday. It is a battle in which cleverness, hard hitting and ring generalship should be the outstanding features.

I dislike to predict the outcome of any match. It is very hard to judge beforehand. As a matter of fact, referees in all parts of the country are constantly in hot water for mak-ing decisions after viewing a con-test for ten, fifteen or twenty rounds.

EXPERTS CONFOUNDED Take the Berlenbach-Delaney con-test as an example. All kinds of pre-dictions were offered and all sorts of wagers were recorded. Endless

along into prominence than this country has. If this is true, it should be deplered, although we have plenty of fine women players in this country still. The encouragement that the youngsters have been getting in Southern California for the past four of five years has resulted in the production of the fingst crop of young players that California has ever seen and we don't really knew just how good they are yet. About two years more and we'll see half a dozen of the present crop of kids who are now in their 'teens, right up among the best in the country.

The second generation in all lines of sport is always interesting although not always successful. We are reminded of this by the amnouncement that Hal Chase, Jr., is about to break into professional baseball. If he's half the player his father was, the boy must be a wonder. After seeing Bob Fitssimmona, Jr., perform in the ring and Bernie Wefers, Jr., on the track, we are indined to doubt the class of the second generations in those sports but both golf and tennis have produced some wonderful sons and there isn't any reason at all why baseball shouldn't except for the recognized fact that very few kids follow in papa's footsteps in business or sport, either.

Every once in a while we get a good laugh out of the antics of some ex-athlete on the stage or in the pictures. This week we were urged into something of a gurgle of delight when Mr. Gumboat's mith flashed upon the screen with Richard Dix at the Metropolitan. Gunboat's humor is to some extent unconscious because his appearance alone is good for a laugh and he has been written into a part that fits him like his skin, but just the same, the old boy is really funny and makes a great fell for the polished work of Bro. Dix. Gunboat's delight at the possibility of getting into a fight is a real kick.

Those Chicago Cubs just simply will not get down where they belong in the second division. When the Bruins finished at the bottom of the National League last year Jears were expressed that this wouldn't be the last

Another bad start in the afternoon, when he took a 5 at the first hole and a 4 at the short second, practicelly relined his chance for a total of 273, but he picked up a number of birdies on his way to the seventeenth so that he stood with two holes to play with a 3 and a 4 for a new record.

His tee shot was off the green at the left at the seventeenth, a short hole and he took a 6.

The eighteenth is 550 yards but Ragen had played it in 4 each of the preceding rounds. He was short with his second and took a 6, missing a fitteen-foot put which would have tied French's record scores.

By doing a 69 in the final round Hagen won the last of the \$100 notes given for each low round of the tournament. Altogether he won three of the four special prises and \$500 first money in the champion-ship; he also was awarded a gold medal with a golf head embosed on it, with diamonds as eyes.

Farrell gave Hagen as great batter fround. Breakin' in a buckin' briar?

TIME WAS when breakin' in a pipe was bad business. A man might corral a beautiful pipe. a perfect thoroughbred, yet at best it took weeks of wranglin' to get it going smoothly.

But today there's a swift and sure pipe-pacifier for any rough-going, rip-snorting old briar. It breaks 'em in in short order. It is Granger Rough Cut!

For the same mild mellowness that has made Granger so famous as a tobacco for old and tried pipes naturally fits it for this breakin' in business. It takes the raw edge off a new briar ... mellows it and keeps it mellow!

Granger is the only tobacco mellowed by the old "Wellman Secret." It owns exclusive rights to this famous recipe. That's why no other tobacco can match Granger for cool, fragrant mellowness!

Granger Rough Cut is made by the Liggett & Myers Tobacco Company

The Anti-Salcon League officials declared the league does not publish the names of contributors to its funds because it would be unethical and would result in harmful effects to the family, social and business relationships of the donors. They attacked Senstor Reed's stand on the matter of churches entering politics and said be had shown to concern when the brewers "dominated politics for half a century with no protest from him or others."

PHOENIX (Ariz.) July 20. (Exclusive)—Representative Carl Hayden. Democrat, is back from Washington, to start his campaign for the Senatorship, in opposition to R. H. Cameron. Republican. Maj. Hayden states that he will not take the field till after the primary, as he has no opponent within his party. He expresses especial interest in the operation of the Corrupt Fractices Act. not only in its effect upon the Pennsylvania and Illinois primaries, but as governing future contests, possibly in Arisona, declaring "the purchase of public office strikes at the very heart of popular government. Nothing worse can happen to the American people than the unlimited use of money to control elections. Let us hope that there will be no occasion to ask for the enforcement of that law in Arisona, and that nothing will occur in our State to demand the attention of Senator Reed's committee." Passing reference is made to the manner in which Mark Smith was defeated for the Senate in 1920. Hayden's first pledge is: "If nominated and elected, I shall vote to deny a seat in the Senate to Mr. Vare of Pennsylvania, and to very other person who presents eredentials tainted with the excessive use of money in Declarations are heard that Msj. Hayden will be opposed by the high-line element of the Democratic party, which is expected to vote for Cameron, though Gov. Hunt recently broke several of the ties that have connacted him with Cameron in the public mind. ATTACKS STATEMENT

ATTACKS STATEMENT

Benator Rased declared that contrary to the published denial of MoBride and Russell, the Anti-Saloon
League devoted a large part of its
work in the control of party primaries. He asserted the dry organimation entered the party primaries in
an effort to control nominations, and
feeling no obligation later to vote
for the candidates nominated in the
primaries.

"These gentlemen," said Beed,
"start out with the assertion that the
publication of names of the AntiSaloon League's contributors would
be 'unethical and would result in
harmfuf effects to the family, business and social relations of the givers.
A little later they say the AntiSaloon League heartily approves making public all contributions for polittleal campaign purposes.

"These distinguished gentlemen, as
is customary and usual with them,
begin by making an attack in which
they practically assert that I have
been in alliance with the brewers.
When they have nothing else to say,
they invariably raise the cry of
'hrewers' and 'brewers' money.'

"What right have these gentlement to say that I never showed a similar concern about the brawers in politics during fifty years? The fact is, that I never, by word or deed, encouraged the liquor interests to believe that they had anything to expect from me except just treatment under the law, and I have frequently criticised the liquor interests in past few years for activity in politics.

"Finally, these gantlemen insimuate that I have great anxiety about churches entering politics. I don't know what they have this on, but since they have raised the question, let me any that I believe that when churches make a mistake, and if that course were to be persisted in, we would find congregations divided and split asunder, because of political differences.

"Since these gentlemen are talking about ethics, I arise to remark that the conduct I have outlined is one at war with every principle of honor, that it would honestly be repudiated by everybody who is engaged in politics, from the common ward-heeler to the highest type of gantleman in the land.

> ARREST RECORDED IN STREET-CAR BOMBING

BEUSEELS, July 20. (Exclusive)—A supertax on foreigners is one of the striking items in the heroic measures which, it is said, will be applied to Belgian finances under the dictatorship of Eing Albert. The ministry examined a project providing that foreigners be assessed heavy taxes on hotel bills and all purchases, in addition to the contemplated impost on all de luxe merchandise, as a means of counteracting the advantages the foreigners receive through the depreciated Belgian franc. INDIANAPOLIS, July 20. (P) Ber INDIANAPOLIS. July 20. (P)—Bert Wainscott, \$4 years of age, was under arrest today following the bombing of a street car here last night, and police were endeavoring to determine responsibility for similar acts of vandalism which have occurred almost nightly since the beginning of a car strike called the 5th inst. Efforts of a citizens' committee and others to bring about a settlement have been futile. So far there have been no injuries.

perity, but threaten later to cripple this basic industry, John W. O'Leary, president of the Chamber of Commerce of the United States, asserts in an article in the forthcoming issue of Nation's Business, the official organ of the association. Mr. O'Leary makes an appeal for teamwork by agriculture and business in finding a permanent solution of the farming problem.

"There is going on," says Mr. O'Leary, "a nation-wide hunt for an answer, sound and abiding, to the question, what does our agriculture need for its att.inment of a permanently healthful condition?"

"The result is confusion without end. The hunters harassed by the futility of it all, first question then impugn the plans and motives of one another, eventually to lose faith even in themselves. The search begins to fail.

"Then there is but one thing to do: call in the scattered searchers, organize the hunt, map out a plan and bind the effort with the tie of singleness of purpose.

"American business, as represented in the National Chamber of Commerce, means business in the corn belt, the wheat belt, the cotton belt, the cattle country, in the West as well as in the East, the North no less than the South. It needs the answer as much as does the farmer. This need springs from purely a material interest rooted in the knowledge that without a stable and healthy agriculture there can be no promise of economic health in other fields of endeavor.

"And because business does need the answer, it has not stood with

deavor.

"And because business does need the answer, it has not stood with folded hands as an interested observer before the spectacle of a people groping for it among the shadows. Its tremendous stake in the issue has made it a party to the effort."

Physician From Pasadena Tells of Health Trend

SEATTLE, July 20. (P)-Dr. George principal speakers at the tenth annual Washington Medical Institute clinic here, declared today that "keeping people well is the important part of the doctor's work." The as-

sociation convened yesterday to con-tinue five days.

"Buch institutes as the present one are planned with that in mind." Dr. Dock said. "They give the home-town practitioner a chance to keep abress's of all the latest developments in medical science and focus the atten-tion of the public on good health. "If we go too far with this busi-ness of keeping people well, we may come to that system in China where the family physician is paid for his services only so long as be keeps the patient well. When sick-ness comes the fees stop and remain so until good health returns."

Arbitration of Disputes Urged Upon Attorneys

SAN PRANCISCO, July 20. (P)—A strong recommendation that the legal profession lend its aid to the settlement of commercial disputes out of court and by arbitration was made at today's session of the Commercial Law League of America, in convention here.

The organization pledged its aid to the establishment throughout the United States of "a system of arbitration, which will relieve the courts of an unnecessary burden and leave them free to devote their time to questions that are fundamental."

As a result, they got into debt \$10,-000,000 and now one of the tasks of the commissioners is to plan how the debt is to be paid. It is asserted that the guardians' clerical staff is \$0 per cent more than was needed. The commissioners have full power to discharge the staff, reduce rates of pay, lower the relief paid and they are reaponable only to the Ministry of Health.

The course of construction volume during the past six months has been similar to its course during the first six months of 1925.

In both years the curve of actual volume ran just below the normal curve. In June, 1925, the curve jumped above the normal line and there followed eight months of abnormally large building volume. In June of this year, the curve fell exactly in proportion to the normal seasonal decline for June, leaving some doubt as to whether later months will continue somewhat below normal or will develop a new rise like that of last year. The figures used in the chart are based on contracts, which anticipate construction activity and general business activity by several months. ... 15.16@15.45 ... 14.05@14.00 ... 12.47@12.45 ... 11.04@11.10 ... 10.80@10.87 ... 10.77@10.88 ... 10.80@16.95

EARNINGS—Net earnings available for interest and bond retirement based on rentals now received and additional revenues expected upon completion of the proposed building are estimated at \$49,040.00, which sum is approximately 2½ times maximum annual interest requirement of this bond issue. Graduated rentals provided in many leases now in effect should materially increase these earnings in subsequent years.

SINKING FUND—Under the sinking fund agreement in the trust indenture the company covenants to deposit monthly with the Trustee a sum equal to one-twelfth of the amount necessary to pay the next installment of principal plus one-sixth of the next maturing interest payment on all outstanding bonds.

MORTGAGE PROVISIONS—Funds deposited with the Trustee for the construction of the new building may be withdrawn only as the work progresses and upon receipt by the Trustee of proper certificates executed by company officials and the supervising architects.

A carefully drawn release schedule provides that no land or building can be released from the

lien of the mortgage except upon payment of the specified release price as set forth in the trust in-

COMPLETION BOND—A surety bond for the full contract price of the new building will be provided for the benefit of the bondholders, guaranteeing the completion of the building free and clear of all liens except current taxes and the lien of this issue.

Other Staff Appointments Announced by Company

Pamous Players-Lasky's policy of centralization was applied to their West Cosst studio yesterday when Jesse L. Lasky, first vice-president, annound B. P. Schulberg had been chosen sole executive head of production. It was also stated there will be three unit heads under Schulberg—Hector Turnbull, formerly associate production head with Schulberg, Eric Pommer, former production head of UFA in Berlin, and Lucien Hubbard. It was stated each of these unit heads will make a series of productions under his own name. Hubbard's first will be "Winga," a story of serial warfare in France, and Pommer will start with "The Hotel Imperial," with Pola Negri. Turnbull's has not yet been selected. Schulberg yesterday announced E. Lloyd Sheldon will be editor-in-chief, responsible for treatment and preparation of all stories for screening. Associate editors are Harry Carr, Charles Furthmann, Herman J. Mankiewicz and Joseph A. Jackson. Several others will be announced later. Milton E. Biographies of State's Leaders in New Volume

Intended as a reference cyclopedia of important citizens of the State, "Men of California," 1926 edition, has appeared for circulation. The book, published by the Western Press Reporter, Inc., will be available for newspapers, libraries and educational institutions.

Including short biographical sketches of approximately 2000 of the foremost men of the State, the book is intended as a record from which may be learned the hames and deeds of those who have added to the progress of the State, according to the introduction by its author and editor, wellington C. CLEANING UP THE TOWN

Nearly 100 proprietors of soft-drink pariers in Los Angeles were arrested and fined for failure to properly sterilise and purify the glasses in which their brew was served. Drinking is going to be made safe in this town for wets and drys alike.

THE GREATEST PLIGHT

A French aviator seems now to hold the record for distance in a nonstop flight. He claims to have flown from Paris to Omsk, in Siberia, without stopping. The distance is just about 2000 miles and it took but twenty-nine hours to cover it—which is better than 100 miles at hour. district for the fiscal year just ended ex-teeded \$5,000,000 for the first time in his-tory. The total imports were nearly \$50,-100,000 and are 20 per cent above those of the previous year. The total exports anceeded \$35,000,000, which is about 12 per cent above the figures of the former year, thus proving that Los Angeles Harbor is fast becoming one of the greatest business propositions in the world.

CREEN GOODS

G California gardeners are now shipping more than 7,000,000 crates of lettuce every year. This is four times the production of any other State in the Union and is partial proof that the consumption of this form of green goods has increased nearly 600 per cent in the last res years. As a people we are taking heavily to saleds. Perhaps madame has found out that she can reduce her flesh better on a saled and fruit diet than on the menu that used to prevail.

HE OVERHEAD SUBWAY The big project now is for a suspension subway across the English Channel. The project calls for a huge tube to be laid high above the waters on massive piles. President Coolidge probably will be sur-prised to learn that the politicians of the Philippines should have subjected his rep-resentative to such summary and, to say the least, impolitic treatment. The mem-bers of the Legislature knew that Col bers of the Legislature knew that Col. Thompson was to remain four months among them. There was pienty of time in which te importune him as to their demands. But the impatient natives, who are clamoring for independence, seem to have considered the colonel's arrival an opportune time for presenting a new and direct appeal to be freed from what one political agitator termed "American tyranpy."

The tyrant is a new role for Uncle Sam

The tyrant is a new role for Uncle Sam to play—one in which neither our cartoon-ists nor other people on this continent ever have dreamed of seeing him. But in the childlike mind of the excited Filipino, who

agree with him, our government is as despotic as any of ancient Roms.

Col. Thompson did not take the matter into his own hands as Col. House might have done had the Philippine mission been have done had the Philippine mission been intrusted to him. What he said to the excited solons was of a noncommittal nature, though pleasant and complimentary enough. He delivered the President's message of good will to the Filipines and assured them that the President had "their welfare permanently in mind."

It is a rident that the President's represent

It is evident that the President's proposed investigation of Philippine affairs, which will be all to the good for the natives, is, oddly enough, not to their taste. Their answer is that they don't want to be investigated, but they want independence. In taking this position they entirely lose sight of the fact that for sevenicen years prior to the World War and during and since that epochal and devastating event this country has given them full protection—a protection under which their commerce and trade have grown to be ten times as great as Extras

Consus Bureau statistics, writes Frederic J. Haskin, show that the expense of municipal government in this country is sucremously higher, comparatively, than the expense of atlonal government. And anyone in Los Angeles can point out a multi-sude of reasons why.

587 children and adults availed themselves of the advantages offered at our supervised municipal playgrounds. Official, though in-complete, figures for the month of June show attendance at the playgrounds of 142, 000 persons. In June of 1925 only 85,891 persons visited the various playgrounds. With more than 1500 registrations now on file for visits to the summer vacation camps. with many new playgrounds opening and with the municipal pools now being used to their capacity, indications are that the people of Los Angeles are wakening to the advantages offered by our great outdoor temples of amusement.

We are all children at heart and those of us who grow old prematurely, weakened in body and suffering from a consciousness of senility, do so because we forget how, or do not take time to play. This would not be so bad if we could learn to take our work joyously, playfully, instead of se-riously. However, instead of considering riously. However, instead of considering the world a playground and looking upon our work as a form of play, we too often look upon the world as a workshop and go to our daily tasks with the attitude of the slave. Hence the necessity for establishing special places of recreation, lest we forget that life is something more and better than a vale of tears between "the cold, barren peaks of two eternities."

THE HIGHER LAW BY R. P. WHITE

owed his moral integrity and degraded the honor and fidelity of which he and Maria had been so proud.

Erneste was sent to San Quentin, convicted of a moral inadvertance preferred against him by an American girl. He is still there.

Then, according to Dona Maria's testimony before Municipal Judge Tursey, in whose court she stood charged with crims, she learned that Ernesto was to be paroled charged with crims, she learned that Ernesto was to be paroled between them and deported back to Mexico. "That would take much money, senor," she said, "At the bottling works, where for months it have worked since they took him away, I earn but little money."

The rest of the drama is not uncommon—in liquor courts it is a familiar story. Maria discovered that with a still abe could make "much money." She bought one; it held two gallons! Arrested, arraigned, tried and convicted, Dona Maria could not go to jail. "Ah, senor, she told the court, "that would be the last straw. It is not for me that I care, ah no. But there is Ernesto! It is too much that he should know that I, Dona Maria, was sant to jail."

"And if you aren't sent to jail, what then?" the court queried.

"Ah, senor, then I shall wait for Ernesto. Together we shall so back across the border, back to old Sonora. There shall be just Ernesto and I."

"You love him, senor? Alma de mi mic orazon is Ernesto! Always he "Core him, senor? Alma de mi corazon is Ernesto! him still, Maria?" Judge Turney, asked.

"Love him, senor? Alma de mi corazon is Ernesto! Always he has been to me the honorable, respected Don Ernesto Hernandez. Si, si, senor, I love him!"

Fortunately for Maria, the court recognized a law greater than the law of man. It was the law of the love agreat love such as Maria's that ruled. Dona Maria and Ernesto shall go back, back to old Sonora. Her sentence was suppended.

LOS ANGELES, July 18.—[To the Editor of The Times:] I see that our lawyer friends, meeting in various parts of the country, deplore the fact that our courts are looked upon with suspicion by the people and that the legal frateralty as a whole is believed to be responsible for most of the ills with which we, as a people, are afficted.

what can they expect? Have not lawyers, almost without exception, made all of our laws? Are we not lawes to death and can anyone dispute that lawyers, as a whole, are responsible?

We have reached the point in this good old U.S.A where we are all lawbreakers "willy-nilly," owing to the multiplication of laws that no one, not even the lawyers, understand; and, up to date, no one has come forward with any same plan to lead us out of the wilderness.

change that comes

HERE is the simplest of all beauty methods. Yet—the one credited with giving more women the charm of natural skin clearness than any other method known.

In your own interest, give it a trial—say for one week. Foremost skin specialists urge it. Thousands employ it. Most of the pretty complexions you see today are due to it.

It proves that a clear skin comes from pores kept clean and the skin free of blemish-inviting matter. Proves, above all things, commonsense skin care is the correct and shortest road to beauty. . . just the gentle olive and palm lather of Palmolive used this way:

THE RULE TO FOLLOW AS URGED BY EXPERTS

AS URGED BY EXPERTS
Wash your face gently with
Palmolive Soap, massaging it softly
into the skin. Rinse thoroughly, first
with warm water, then with cold.
If your skin is inclined to be dry,
apply a touch of good cold creamthat is all.

Do this regularly, and particularly in the evening. Use powder
and rouge if you wish. But never
leave them on over night. They clog
the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.
Follow these rules day in and day

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same.

Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is a beauty soap made for one purpose only: to safeguard your complexion. 60 years of soap study stand behind it. Millions of pretty skins prove its effectiveness beyond all doubt.

BE SURE YOU GET THE

BE SURE YOU GET THE REAL PALMOLIVE

It costs but 10c the cake!—so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Note what one week of its use brings you. The Palmolive Company (Del. Corp.), Chicage, Illinois.

Richard Taimadge with Universal
That lively young leaper of fences
and jumper of walls, Richard Taimadge, he of the India-rubber
muscles, has just been signed by Universal, we are informed, on a longterm contract, and a contract so important in its terms regarding quality of pictures as well as salary as to
make it one of the big transactions of
the year. Taimadge has been making
pictures for F.B.O. which have been
growing steadily in popularity.
Under the terms of the contract,
Taimadge is to make six pictures for
Universal, and Irving Williat is being
brought back from New York to direct the first one. This story will be
called "The Black Rider," and is
from the pen of Max Brand.

Adolphe Menlou Another Walter

Adolphe Menjou Another Waiter

Ernest Vadja has done so darn well for the Paramount boys in the way of writing stories for them that they have commissioned him to write two brand-new original stories for them.

The first of these stories will serve as a vehicle for Adolphe Menjou; and it does seem as though the adage is proven true once more which says that once a waiter, always a waiter, since Menjou having made such a success playing haif the title in "The Grand Duches and the Waiter." he is once again to play a waiter in Vadja's story, which is titled "The Head Waiter." But at any rate, one can discern promotion in that title. The other Vadja story will be a special about New York life which, one understands, the author has been studying intensively during the past few months.

But Vadja isn't going to do his writing about New York in that city, which may be ominous, but is to go to Hungary to work his typewriter, returning here in September.

COMMENCE FILMING OF VERNE FANTASY

"THE MYSTERIOUS ISLAND" TO BE PHOTOGRAPHED IN TECHNICOLOR

The filming of "The Mysterious Island," one of the greatest undertakings ever attempted by a motion-picture studio, was commenced this week under the direction of Maurice Tourneur, after more than a year's preparation.

Early in 1925, the Metro-Goldwyn-Mayer organization sanounced their plan to produce this Jules Verne fantasy. The studio intends to spare no time or expense in making of this picture to stand beside its "Ben Hur," "The Big Parade" and "The Merry Widow."

Unusual interest is attached to the picture in that many of the scenes will be filmed on the ocean floor by J. E. Williamson, with the sid of his own process of undersea photography, and the fact that these scenes will be brought to motion-picture audiences in their natural colors, since the entire picture is being photographed in technicolor. Williamson's headquarters, while making these recenes, will be Nassau, in the Bahama Islands, near which the underwater scenes will be filmed.

found on their rambles over the countryside.

"So the next morning all the boys brought stones and laid them on the master's table, and Charlie Schwab—for a joke, you know—only brought haif a brick.

"The schoolmaster in due course came to the stones. He understood geology, you bet, and as he took them up one by one he said:

An indication that Los Angeles and Southern California are enjoying a prosperous year was evidenced yesterday in the announcement made by the Broadway Department Store that the sales there since the first of the year are the largest in the thirty-year history of the store. Monday was the largest business day the institution has ever experienced, according to store officials. More than 78,542 persons entered the store during the course of the day, which marked the opening of the twenty-sixth annual sale.
